RE: Hillcrest Outfall Line Questionnaire

Dear Participating Districts:

In the flooding event of the shared Outfall Line that occurred in June 2015, seven homes had severe property damage and health risks.

Respectfully, we request your response to the following questions:

1. What action would you suggest be taken to investigate the sources of extraneous water in your District and basin wide?
2. Have you adopted rules and regulations for your District with provisions for discovery of extraneous water and penalties for violators? Would you prefer to adopt common rules for everyone?
3. Would your Board be receptive to cooperating with Hillcrest to enter all connector's lines to investigate sources of extraneous water basin wide? (This may mean a review of maintenance records, videotaping, smoke testing, metering, etc., and would be paid out of the Outfall Line fund.)
4. Do you have proposals to improve the governing structure of the Outfall Basin, such as consolidation?

Please email your responses to sblair@crsolorado.com at your earliest convenience. Your cooperation is appreciated.

Thank you,

Sue Blair
District Manager
